Colley Road-Brick Church 69 kV Line Rebuild & Uprate [CA]		Apr
Bayport-Sobieski-Pioneer Tap 69 kV Line Rebuild [CA]		Jun
Wesmark-Manrap 69 kV Line Rebuild [CA]		Jun
Oak St.-Hwy. V-Finger Road-Danz 69 kV Line Rebuild [CA]		Jun

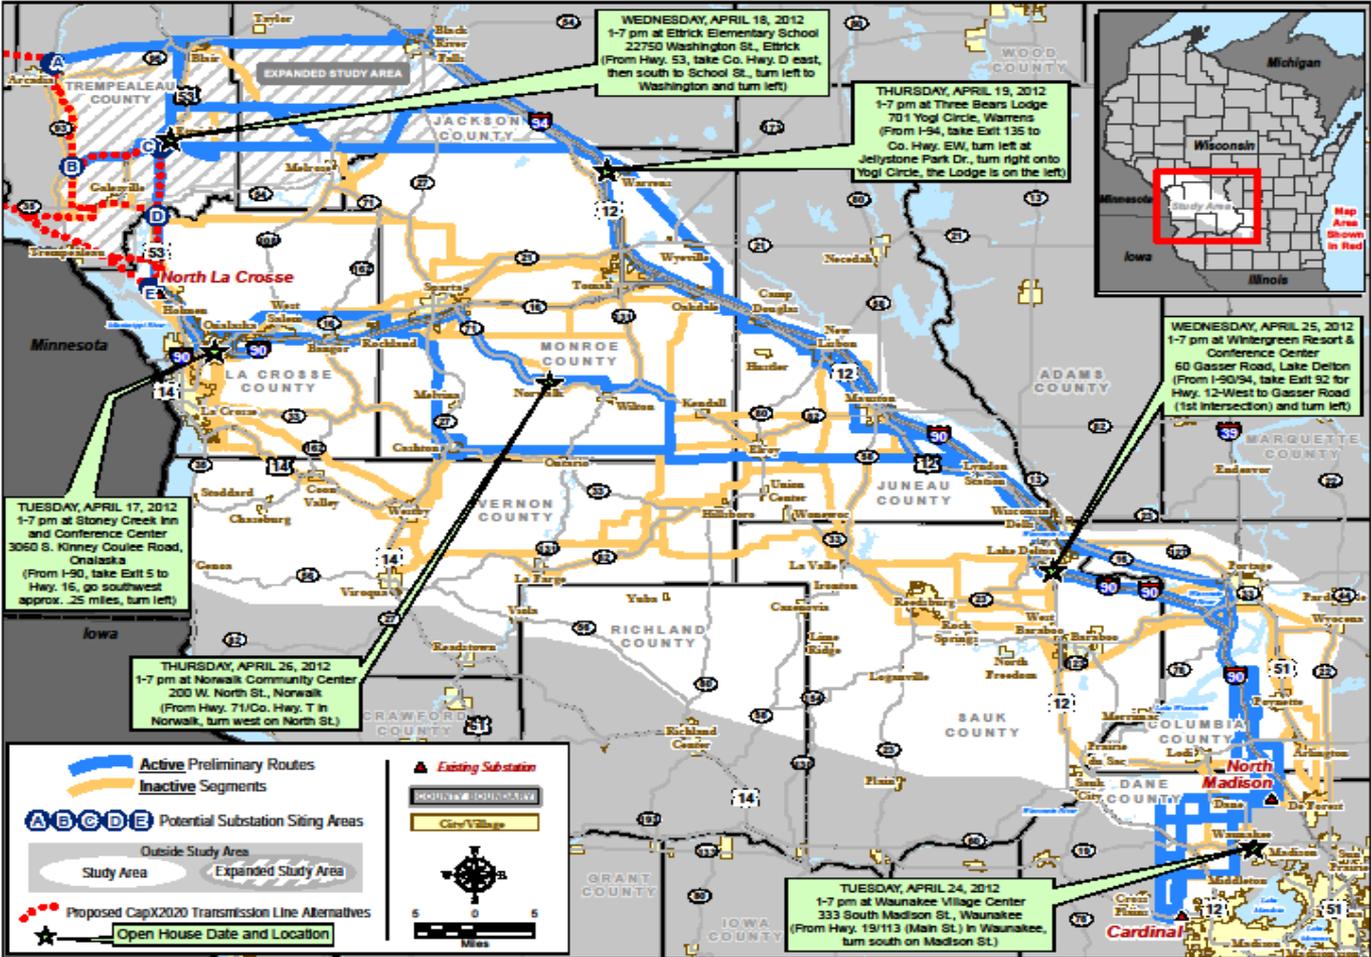

# Future Projects

- D-T interconnections
- G-T interconnections
- Additional asset maintenance projects

# Communication and Public Outreach

- Badger Coulee Project
- Bay Lake Project

# Badger Coulee Project

# Badger Coulee Project

- Approximately 150-170 miles from northern Dane County to North of La Crosse
- Multiple benefits
  - Improve reliability in Southwest WI region
  - Provide economic savings by improving access
  - Improve access to renewable energy
- Approximate cost: \$425 million
- In-service date: 2018

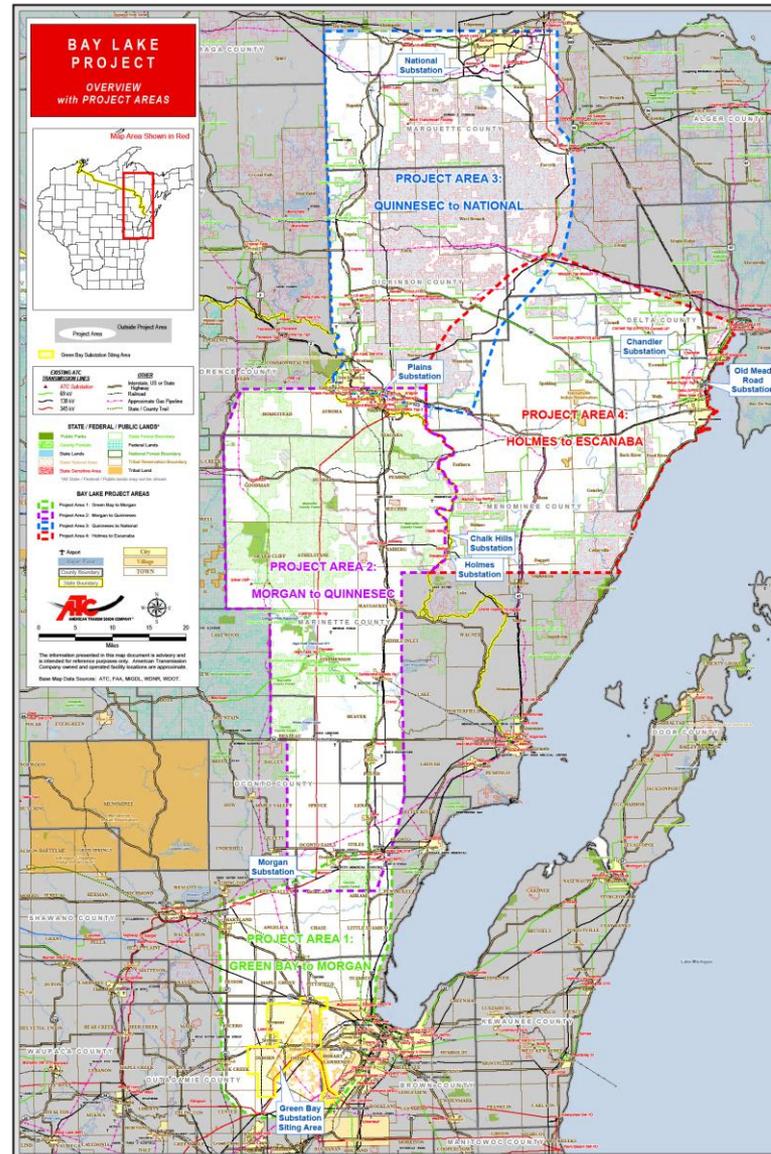

# Where Are We Now?

- Open houses in Sept/October 2010 introduced the project as a broad study area
- Second round of open houses in June, 2011 identified a number of potential corridors
- Third round of open houses happening right now, soliciting comment on several preliminary routes
- Application filing anticipated in 2013

# Public Involvement to Date

- First two rounds of open houses had over 3,000 attendees
- Received over 1,800 written comments to date
- First week of round three open houses were attended by over 600 people in a three day period

# Bay Lake Project

# Bay Lake Project

- Several factors contribute to need for system reinforcements
  - Generation Changes
  - Changes in Demand
  - Evolution of Wholesale Market
  - Emerging Reliability Concerns
- File regulatory applications in WI and MI in late 2013 and early 2014
- Upcoming open houses in May 2012

# Questions?
